## **MARSABIT COUNTY GOVERNMENT**

### **Quarterly Report and Financial Statements for the Period ended June 30, 2025.**

#### **3. Foreword by CECM Finance and Economic Planning**

I am pleased to present the financial report for the County Government of Marsabit for the Fourth quarter of the financial year 2024/2025 that ended on June 30, 2025.

This quarterly report is in line with the Public Finance Management Act (PFM), 2012. Section 166(1) of the Act stipulates that an accounting officer of a county government entity shall prepare a report for each quarter of the financial year in respect to the entity.

The quarterly reports are then to be submitted to the County Assembly not later than one month after the end of the quarter according to Section 166(4) (a) of the Act and (b) copies as well delivered to the Controller of Budget, National Treasury, Commission on Revenue Allocation. These financial statements have been prepared in line with this Act.

Financial statements are critical in ensuring accountability and transparency in usage and utilisation of public funds by public entities. In addition to this, timely financial reporting by adhering to the PFM Act does play a role in accountability.

Counties have three main sources of revenue: exchequer issues (through equitable share of revenue with the national government), own source revenue collections and conditional grants and donations. The collection of own source revenue is in line with Article 175(b) of the Constitution.

During this quarter the County received approvals from the office of the Controller of Budget to transfer funds from the County Revenue Fund for its operations. In this regard, there was cumulative transfers of Kshs 7.42 billion during this period to pay for recurrent and development expenditure, which included County personnel emoluments and other operations and maintenance.

Additionally, the cumulative expenditure by the end of quarter 4 amounted to Kshs 7.76 billion comprising recurrent expenditure of Kshs 4.9 billion, (being funds utilised for County employees' salaries and wages as wells as payment for County's operations and maintenance activities/programmes) and development expenditure of Kshs 2.7 billion.

The County remains committed to fulfil its fiscal responsibilities on usage of public funds to the benefit of all residents of the County. There are measures to ensure prudent resource management with every cent spent with the intention to achieve the goals as set out in the County.

I am further pleased to report that some of the major flagship projects are complete or nearing completion and these included the County upgrade of Moyale town road to bitumen which is expected

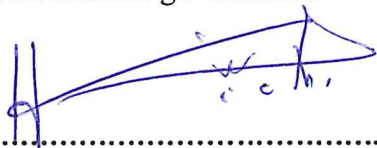

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Report and Financial Statements for the Period ended June 30, 2025.**

to spur economic activities. The County also completed an administration block and classes at Marsabit Kenya Medical Training College.

The County is also almost completing Sololo level IV hospital that will be game changer in access to health services.

In progress is also Aggregate and industrial park, project being undertaken by the county government in partnership with national government.

## **MARSABIT COUNTY GOVERNMENT**

### **Quarterly Report and Financial Statements for the Period ended June 30, 2025.**

#### **4. Management Discussion and Analysis**

Marsabit County is one of the counties formed under Article 176 of the Constitution of Kenya, 2010, as part of devolution that came into effect following the promulgation of the Constitution.

Article 202 of the Constitution of Kenya, 2010, states that revenue raised nationally shall be shared equitably among the national and county governments.

This revenue is shared according to a formula determined by the Commission on Revenue Allocation which is discussed and passed by Parliament as the Division of Revenue Bill.

As public entities, counties are bound by the Public Finance Management (Act), 2012, which stipulates the usage of public funds and reporting of the same in the spirit of accountability.

These are the financial statements for the quarter ended June 30, 2025.

There is a need for the county to improve further collections from Own Source Revenue which has as much potential for financing the county as equitable share from the exchequer.

Low-hanging fruit in this pursuit is developing infrastructure in the county such as roads, markets, water, and sewerage which would make the county attractive to investors.

During the period ended June 30,2025, the county cumulatively received Kshs 8.2 billion from the exchequer as equitable share. The county also collected own source revenue from its various revenue streams . The target for Own Source Revenue for the period is Ksh110 Million.

An amnesty to non-compliant individuals in the county also managed to boost the revenue. This is part of the county's efforts to improve compliance and revenue collection.

It is expected that as the national economic conditions improve, looking at the downward trend of the inflation rate and the expected ease of interest rate, then collections at the county will improve as well.

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Report and Financial Statements for the Period ended June 30, 2025.**

The county's development focus during the period was on health, education, water, and sanitation. Kshs 3,657,915,664 was appropriated towards development in the period.

This is to enhance the construction of hospitals, the tarmacking of roads, improvement of civil works, construction and rehabilitation of markets to ease trade in the county.

## MARSABIT COUNTY GOVERNMENT

### Quarterly Report and Financial Statements for the Period ended June 30, 2025.

#### 5. Statement of Management Responsibilities

Section 166 of the Public Finance Management Act, 2012 requires that, at the end of each quarter, the Marsabit County Treasury shall prepare financial statements for all Marsabit County Government entities in accordance with the standards and formats prescribed by the Public Sector Accounting Standards Board.

The County Executive Committee (CEC) member for Finance and Economic planning of the Marsabit County Government is responsible for the preparation and presentation of the County Government's financial statements, which give a true and fair view of the state of affairs of the County Government for and as at the end of the period ended June 30, 2025. This responsibility includes: (i) Maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period; (ii) Maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the county government; (iii) Designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud; (iv) Safeguarding the assets of the county government; (v) selecting and applying appropriate accounting policies; and (vi) Making accounting estimates that are reasonable in the circumstances.

The CEC member for Finance and Economic planning accepts responsibility for the County Government's financial statements, which have been prepared on the Accrual Basis Method of Financial Reporting, using appropriate accounting policies in accordance with International Public Sector Accounting Standards (IPSAS). The CEC member for Finance and Economic Planning is of the opinion that the County Government's financial statements gives a true and fair view of the state of the County Government's transactions during the period ended June 30, 2025, and of its financial position as at that date.

The CEC member for finance further confirms the completeness of the accounting records maintained for the County Government which have been relied upon in the preparation of the financial statements as well as the adequacy of the systems of internal financial control.

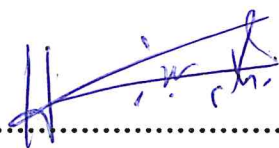

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Report and Financial Statements for the Period ended June 30, 2025.**

The CEC member for Finance and Economic planning confirms that the County Government has complied fully with applicable Government Regulations and the terms of external financing covenants (where applicable), and that the County Government's funds received during the quarter were used for the eligible purposes for which they were intended and were properly accounted for. Further, the CEC member for finance confirms that the County Government's financial statements have been prepared in a form that complies with relevant accounting standards prescribed by the Public Sector Accounting Standards Board of Kenya.

**Approval of the financial statements**

The County Government's financial statements were approved and signed by the CECM for Finance on \_\_\_\_\_ 2025.

MAKSABILI COUNCIL GOVERNMENT I  
 Quarterly Report and Financial Statements for the Period ended June 30, 2025.

Reconciliation table

	Operating	Financing	Investing	total
<i>Actual amounts on comparable basis presented in the budget and actual comparative statement</i>	68,666,257			68,666,257
<i>Basis difference</i>				
<i>Timing differences</i>			(22,405,328)	(22,405,328)
<i>Entity differences</i>			61,648,704	61,648,704
<i>Classification differences</i>				
<i>Actual in the statement of cashflows</i>	68,666,257		39,243,375	107,909,632

Budget Notes

1. Provide below a commentary on significant underutilization (below 90% of utilization) and any overutilization (IPSAS 24.14).
2. Provide an explanation of changes between original and final budget indicating whether the difference is due to reallocations or other causes. (IPSAS 24.29).
3. Where the total of actual on comparable basis does not tie to the statement of financial performance totals due to differences in accounting basis, classification, entity and timing differences provide a reconciliation.

## MARSABIT COUNTY GOVERNMENT

### Quarterly Reports and Financial Statements for the Period ended June 30, 2025.

---

#### 11. Notes to the Financial Statements

##### 1. General Information

Marsabit county executive Entity is established by and derives its authority and accountability from The Constitution of Kenya/Act 2010. The Entity is domiciled in Kenya and its principal activities are xxx.

##### 2. Statement of Compliance and Basis of Preparation

###### Statement of Compliance

The financial statements have been prepared in accordance with the Public Finance Management Act, 2012 and with the International Public Sector Accounting Standards (IPSAS).

###### *Guiding note during the transition period:*

*The financial statements have been prepared in accordance with the PFM Act, and International Public Sector Accounting Standards (IPSAS), or the entity has taken advantage of the transitional provisions under IPSAS 33 and therefore these 1<sup>st</sup>/ 2<sup>nd</sup>/ 3<sup>rd</sup>/ years financial statements are transitional financial statements and the following elements of the financial statements have not been recognised as the entity has taken advantage of the transition provisions outlined in IPSAS 33. (entity to state the transitional provisions it has applied and the steps being towards full compliance with IPSAS Accrual).*

###### Basis of Preparation

These financial statements have been prepared on a going concern basis, and the accounting policies have been applied consistently throughout the period. These financial statements have been prepared on an accrual basis unless otherwise specified (for example, the Statement of Cash Flows). Under an accrual basis, revenues are recognised when rights to assets are earned or levied rather than when cash is received, and expenses are recognised when obligations are incurred rather than when they are settled. The financial statements have been prepared and presented in Kenya Shillings, which is the functional and reporting currency of the Entity. The accounting policies adopted have been consistently applied to all the years presented.

## MARSABIT COUNTY GOVERNMENT

### Quarterly Reports and Financial Statements for the Period ended June 30, 2025.

---

#### Notes to the financial statements

#### Significant Accounting Policies

##### **Critical accounting judgements**

IPSAS requires accounting judgements to be made in determining accounting policies that impact the presentation of these financial statements. The most critical of these judgements, and their impact, are:

##### Recognition of revenue

A revenue is an increase in the net financial position, other than increases arising from ownership contributions. Revenue is required to be measured when the event occurs and when recognition criteria (probable inflow of resources and ability to reliably measure their value) are met. Judgment is required to determine if these criteria are met, particularly where limited evidence is available at the time the revenue is earned.

##### Recognition of non-exchange expenses and liabilities

A liability is a present obligation to the entity for an outflow of resources that results from a past event. Expenses (and other liabilities) are recognized when there is a present obligation (legal or constructive) as a result of a past event. An outflow of resources embodying economic benefits will probably be required to settle the obligation and a reliable estimate of the obligation can be made. Judgment is required in assessing each of these conditions, and therefore reporting if an expense and a present obligation should be reported.

The *entity* pursues a number of policy targets and outcomes. However, the commitment to these targets and outcomes, generally, do not of themselves constitute a present obligation unless the *entity* is clear on the cost it intends to incur, when payment will be made, and to whom and as a consequence has raised a valid expectation. As a consequence, liabilities are not reported for costs associated with the *entity* policy objectives and targets. Where a policy choice gives rise to an obligation that exists independently of the *entity's* future actions, expenses (and other related liabilities) are recognized for that policy.

##### Purpose and nature of financial instruments

Judgment is required in determining whether financial assets (including investment in securities and advances) and financial liabilities are held for trading or to provide a return through interest and principal transactions. Depending on that judgment, financial instruments will be reported at fair value or on an amortized cost basis.

**Notes to the financial statements**  
**Significant Accounting Policies**

Climate change obligations

Kenya's current National Determined Contribution (NDC) to deliver on the goals of the Paris Agreement sets a headline target of a 32 per cent emission reduction by 2030 relative to the business-as-usual scenario of 143 MtCO<sub>2</sub>eq. Entity's commitment to climate change action does not constitute a present obligation on the balance sheet but are disclosed separately.

Physical assets

An asset is a resource presently controlled by the entity as a result of a past event. The primary reason for holding property, plant and equipment and other assets is for their service potential rather than their ability to generate cash flows. Because of the types of services provided, a significant proportion of assets used by public sector entities including roads, national parks, heritage buildings etc are specialized in nature. There may be a limited market for such assets and so judgement is required on measurement. Judgment is also required whether assets are held for commercial purposes or public benefit purposes.

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Reports and Financial Statements for the Period ended June 30, 2025.**

---

**Notes to the financial statements**

**Significant Accounting Policies**

**3. Summary of Significant Accounting Policies**

**a) Revenue recognition**

**i. Revenue from non-exchange transactions**

**Transfers from other government entities**

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the Entity and can be measured reliably. Recurrent grants are recognized in the statement of financial performance. Development/Capital grants are recognized in the statement of financial performance after meeting revenue recognition criteria. Conditional grants are recognized as revenue upon fulfilment of the set conditions.

**ii. Revenue from exchange transactions**

**Interest income**

Interest income is accrued using the effective yield method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income each period.

**Dividends**

Dividends or similar distributions must be recognized when the shareholder's or the Entity's right to receive payments is established.

**Rental income**

Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms and included in revenue.

**b) Budget information**

The original budget for FY 2024/25 was approved by the County Assembly on xxxx. Subsequent revisions or additional appropriations were made to the approved budget in accordance with specific approvals from the appropriate authorities. The additional appropriations are added to the original budget by the Entity upon receiving the respective approvals in order to conclude the final budget. Accordingly, the Entity recorded additional appropriations of xxxx on the 2024/25 budget following the governing body's approval. The Entity's budget is prepared on a different basis to the actual income and expenditure disclosed in the financial statements.

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Reports and Financial Statements for the Period ended June 30, 2025.**

---

**Notes to the financial statements**

**Significant Accounting Policies**

**Budget information (continued)**

The financial statements are prepared on accrual basis using a classification based on the nature of expenses in the statement of financial performance, whereas the budget is prepared on a cash basis. The amounts in the financial statements were recast from the accrual basis to the cash basis and reclassified by presentation to be on the same basis as the approved budget. A comparison of budget and actual amounts, prepared on a comparable basis to the approved budget, is then presented in the statement of comparison of budget and actual amounts. In addition to the Basis difference, adjustments to amounts in the financial statements are also made for differences in the formats and classification schemes adopted for the presentation of the financial statements and the approved budget. A statement to reconcile the actual amounts on a comparable basis included in the statement of comparison of budget and actual amounts and the actuals as per the statement of financial cash flows has been presented under section xxx of these financial statements.

**c) Investment property**

Investment properties are measured initially at cost, including transaction costs. The carrying amount includes the replacement cost of components of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day maintenance of an investment property. Investment property acquired through a non-exchange transaction is measured at its fair value at the date of acquisition. Subsequent to initial recognition, investment properties are measured using the cost model and are depreciated over an xx-year period. Investment properties are derecognized either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit or service potential is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the surplus or deficit in the period of de-recognition. Transfers are made to or from investment property only when there is a change in use.

**d) Property, plant and equipment**

All property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items. When significant parts of property, plant and equipment are required to be replaced at intervals, the Entity recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in surplus or deficit as incurred. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration the asset is initially measured at its fair value

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Reports and Financial Statements for the Period ended June 30, 2025.**

---

**Notes to the financial statements**

**Significant Accounting Policies**

**e) Right of use asset**

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received, and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses. Whenever the entity incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognized and measured under IPSAS 21 or IPSAS 26. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories. Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the entity expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease. The right-of-use assets are presented as a separate line in the statement of financial position.

**f) Tangible Natural Resources**

The entity recognises a tangible natural resource recognized if, and only if: It is probable that service potential associated with the natural resource will flow to the entity; the entity controls the tangible natural resource as a result of past events; and The tangible natural resource can be measured reliably. Where this criterion is not met, the entity discloses the tangible natural resource in the notes to the financial statements. Where a tangible natural resource is recognized as an asset as the result of an event that is not a transaction in an orderly market, including non-exchange transactions, the asset shall be measured initially at its deemed cost. An entity shall apply IPSAS 46, Measurement, when measuring the deemed cost of such a recognized tangible natural resource. A recognized tangible natural resource acquired through an exchange transaction shall be measured at its cost. Historical cost model is applied after initial recognition less any depreciation and impairment losses.

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Reports and Financial Statements for the Period ended June 30, 2025.**

---

**Notes to the financial statements**

**Significant Accounting Policies**

**g) Leases**

Finance leases are leases that transfer substantially all of the risks and benefits incidental to ownership of the leased item to the Entity. Assets held under a finance lease are capitalized at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the future minimum lease payments. The Entity also recognizes the associated lease liability at the inception of the lease. The liability recognized is measured as the present value of the future minimum lease payments at initial recognition. Subsequent to initial recognition, lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in surplus or deficit. An asset held under a finance lease is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Entity will obtain ownership of the asset by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

**h) Intangible assets**

Intangible assets acquired separately are initially recognized at cost. The cost of intangible assets acquired in a non-exchange transaction is their fair value at the date of the exchange. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in surplus or deficit in the period in which the expenditure is incurred. The useful life of the intangible assets is assessed as either finite or indefinite.

**i) Research and development costs**

The Entity expenses research costs as incurred. Development costs on an individual project are recognized as intangible assets when the Entity can demonstrate:

- i) The technical feasibility of completing the asset so that the asset will be available for use or sale;
- ii) Its intention to complete and its ability to use or sell the asset;
- iii) How the asset will generate future economic benefits or service potential;
- iv) The availability of resources to complete the asset;
- v) The ability to measure reliably the expenditure during development.

Following initial recognition of an asset, the asset is carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete, and the asset is available for use. It is amortized over the period of expected future benefit. During the period of development, the asset is tested for impairment annually with any impairment losses recognized immediately in surplus or deficit.

**Notes to the financial statements**

**Significant Accounting Policies**

**j) Financial instruments**

IPSAS 41 addresses the classification, measurement and de-recognition of financial assets and financial liabilities, introduces new rules for hedge accounting and a new impairment model for financial assets. The entity does not have any hedge relationships and therefore the new hedge accounting rules have no impact on the Company's financial statements. (amend as appropriate). A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. At initial recognition, the entity measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through surplus or deficit, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

**i. Financial assets**

**Classification of financial assets**

The entity classifies its financial assets as subsequently measured at amortized cost, fair value through net assets/ equity or fair value through surplus and deficit on the basis of both the entity's management model for financial assets and the contractual cash flow characteristics of the financial asset. A financial asset is measured at amortized cost when the financial asset is held within a management model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding.

A financial asset is measured at fair value through net assets/ equity if it is held within the management model whose objective is achieved by both collecting contractual cashflows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. A financial asset shall be measured at fair value through surplus or deficit unless it is measured at amortized cost or fair value through net assets/ equity unless an entity has made irrevocable election at initial recognition for particular investments in equity instruments.

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Reports and Financial Statements for the Period ended June 30, 2025.**

---

**Notes to the financial statements**

**Significant Accounting Policies**

**Subsequent measurement**

Based on the business model and the cash flow characteristics, the entity classifies its financial assets into amortized cost or fair value categories for financial instruments. Movements in fair value are presented in either surplus or deficit or through net assets/ equity subject to certain criteria being met.

**Amortized cost**

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest, and that are not designated at fair value through surplus or deficit, are measured at amortized cost. A gain or loss on an instrument that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is de-recognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

**Fair value through net assets/ equity**

Financial assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through net assets/ equity. Movements in the carrying amount are taken through net assets, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in surplus/deficit. Interest income from these financial assets is included in finance income using the effective interest rate method.

**Trade and other receivables**

Trade and other receivables are recognized at fair values less allowances for any uncollectible amounts. Trade and other receivables are assessed for impairment on a continuing basis. An estimate is made of doubtful receivables based on a review of all outstanding amounts at the year end.

**Fair value through surplus or deficit**

Financial assets that do not meet the criteria for amortized cost or fair value through net assets/ equity are measured at fair value through surplus or deficit. A business model where the entity manages financial assets with the objective of realizing cash flows through solely the sale of the assets would result in a fair value through surplus or deficit model.

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Reports and Financial Statements for the Period ended June 30, 2025.**

---

**Notes to the financial statements**

**Significant Accounting Policies**

**Impairment**

The entity assesses, on a forward-looking basis, the expected credit loss ('ECL') associated with its financial assets carried at amortized cost and fair value through net assets/equity. The entity recognizes a loss allowance for such losses at each reporting date. Critical estimates and significant judgments made by management in determining the expected credit loss (ECL) are set out in Note xx.

**ii) financial liabilities**

**Classification**

The entity classifies its liabilities as subsequently measured at amortized cost except for financial liabilities measured through surplus or deficit

**k) Inventories**

Inventory is measured at cost upon initial recognition. To the extent that inventory was received through non-exchange transactions (for no cost or for a nominal cost), the cost of the inventory is its fair value at the date of acquisition. Costs incurred in bringing each product to its present location and conditions are accounted for, as follows:

- i) Raw materials: purchase cost using the weighted average cost method.
- ii) Finished goods and work in progress: cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs.

After initial recognition, inventory is measured at the lower of cost and net realizable value. However, to the extent that a class of inventory is distributed or deployed at no charge or for a nominal charge, that class of inventory is measured at the lower of cost and current replacement cost. Net realizable value is the estimated selling price in the ordinary course of operations, less the estimated costs of completion and the estimated costs necessary to make the sale, exchange, or distribution. Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the *Entity*.

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Reports and Financial Statements for the Period ended June 30, 2025.**

---

**Notes to the financial statements**

**Significant Accounting Policies**

**l) Provisions**

Provisions are recognized when the Entity has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Entity expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of financial performance net of any reimbursement.

**m) Contingent liabilities**

The Entity does not recognize a contingent liability but discloses details of any contingencies in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

**n) Contingent assets**

The Entity does not recognize a contingent asset but discloses details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Entity in the notes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

**o) Nature and purpose of reserves**

The Entity creates and maintains reserves in terms of specific requirements. (*Entity to state the reserves maintained and appropriate policies adopted*).

**p) Changes in accounting policies and estimates**

The Entity recognizes the effects of changes in accounting policy retrospectively. The effects of changes in accounting policy are applied prospectively if retrospective application is impractical.

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Reports and Financial Statements for the Period ended June 30, 2025.**

---

**Notes to the financial statements**

**Significant Accounting Policies**

**q) Employee benefits**

**Retirement benefit plans**

The *Entity* provides retirement benefits for its employees and directors. Defined contribution plans are post-employment benefit plans under which an Entity pays fixed contributions into a separate Entity (a fund), and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year in which they become payable. Defined benefit plans are post-employment benefit plans other than defined-contribution plans. The defined benefit funds are actuarially valued tri-annually on the projected unit credit method basis. Deficits identified are recovered through lump sum payments or increased future contributions on proportional basis to all participating employers. The contributions and lump sum payments reduce the post-employment benefit obligation.

**r) Foreign currency transactions**

Transactions in foreign currencies are initially accounted for at the ruling rate of exchange on the date of the transaction. Trade creditors or debtors denominated in foreign currency are reported at the statement of financial position reporting date by applying the exchange rate on that date. Exchange differences arising from the settlement of creditors, or from the reporting of creditors at rates different from those at which they were initially recorded during the period, are recognized as income or expenses in the period in which they arise.

**s) Borrowing costs**

Borrowing costs are capitalized against qualifying assets as part of property, plant and equipment. Such borrowing costs are capitalized over the period during which the asset is being acquired or constructed and borrowings have been incurred. Capitalization ceases when construction of the asset is complete. Further borrowing costs are charged to the statement of financial performance.

**t) Related parties**

The *Entity* regards a related party as a person or an Entity with the ability to exert control individually or jointly, or to exercise significant influence over the *Entity*, or vice versa. Members of key management are regarded as related parties and comprise *the Governor, Deputy governor, County Secretary, County Executive Committee Members and Chief Officers, Speaker of the county assembly and, Clerk of the county Assembly, Directors and senior managers. (Entity to amend accordingly)*

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Reports and Financial Statements for the Period ended June 30, 2025.**

---

**Notes to the financial statements**

**Significant Accounting Policies**

**u) Service concession arrangements.**

The *Entity* analyses all aspects of service concession arrangements that it enters into in determining the appropriate accounting treatment and disclosure requirements. In particular, where a private party contributes an asset to the arrangement, the *Entity* recognizes that asset when, and only when, it controls or regulates the services the operator must provide together with the asset, to whom it must provide them, and at what price. In the case of assets other than 'whole-of-life' assets, it controls, through ownership, beneficial entitlement or otherwise – any significant residual interest in the asset at the end of the arrangement. Any assets so recognized are measured at their fair value. To the extent that an asset has been recognized, the *Entity* also recognizes a corresponding liability, adjusted by a cash consideration paid or received.

**v) Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year.

**w) Comparative figures**

In preparing these financial statements, the entity has elected to apply paragraph 79 of IPSAS 33, which allows for the election by an entity to present one statement of financial performance, one statement of cash flow, one statement of net assets and the statement of financial position and an opening statement of financial position as at the time of first time adoption of the accrual basis of accounting.

**x) Subsequent events**

There have been no events subsequent to the financial year end with a significant impact on the financial statements for the period ended Sep 30, 2024.

**4. Significant Judgments and Sources of Estimation Uncertainty**

The preparation of the Entity's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods. State all judgements, estimates and assumptions made:

**MARSABIT COUNTY GOVERNMENT**

**Quarterly Reports and Financial Statements for the Period ended June 30, 2025.**

---

**Notes to the financial statements**

**Significant Accounting Policies**

**Estimates and assumptions.**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Entity based its assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Entity. Such changes are reflected in the assumptions when they occur.

**Useful lives and residual value**

The useful lives and residual values of assets are assessed using the following indicators to inform potential future use and value from disposal:

- a) The condition of the asset based on the assessment of experts employed by the Entity.
- b) The nature of the asset, its susceptibility and adaptability to changes in technology and processes.
- c) The nature of the processes in which the asset is deployed.
- d) Availability of funding to replace the asset.
- e) Changes in the market in relation to the asset

**Provisions**

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions is included in Note xx. Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the reporting date and are discounted to present value where the effect is material.

*(include provisions applicable for your organisation e.g. provision for bad debts, provisions of obsolete stocks and how management estimates these provisions).*
